

Red Poke Scheduler — How to Use the Web App

This guide is for **managers** and **employees**. It explains how to sign in, what each screen does, and how to use the shared time clock tablet.

Keep this document private. It includes shared passwords and employee clock PINs.

Signing in

Use your **name** and **password** on the login screen (not your personal email).

Who	Name to enter	Password
Manager	Martin Long	redpoke
Manager	Ongi Management	redpoke
Employee	Your full name exactly as on the roster (see PIN list below)	redpoke

Employees can also choose **Create employee account** on the login page if a manager has not added them yet.

For managers

After you sign in, you will see five tabs at the top: **Schedule**, **Team**, **Actions**, **Messages**, and **Timecards**. Tap **Sign Out** (top right) when you are done.

Schedule

Build and update the weekly schedule.

1. Choose **Week 1**, **Week 2**, or **Week 3**.
2. Choose a **location** (for example 9th Ave).
3. Tap any shift on the calendar to open that shift.
4. **Edit Staffing** — select who is working that shift, then tap **Save**.
5. **Coverage** — use when you need to find coverage for a callout (phone outreach to staff).
6. Use the toolbar when you need to:
 - **Templates** — apply a saved weekly pattern
 - **Shift Times** — edit default shift hours
 - **Manage Locations** — add or rename locations

Role colors on the calendar

- **Front of the House** (bartenders)
- **Back of the House** (kitchen)
- **Delivery / Dishwasher** (servers)

Team

Your full staff list.

- Tap **+** to add someone new, or tap a name to open their profile.
- On each profile you can set: name, role, phone, location, hourly pay rate, and **clock PIN**.

- **Assign PINs** — gives a new 6-digit PIN to anyone who does not have one yet. If you assign a new PIN, the old one stops working; tell the employee the new number.
- The profile also shows their schedule, recent punches, and hours for the current pay week.

Timecards

Review hours and pay for the current **pay week** (Monday through Sunday).

- The main list shows everyone: scheduled hours, regular hours, overtime, total hours, and estimated pay.
- Tap column headers to sort.
- **Download CSV** saves a spreadsheet of what you are viewing.
- Tap a person to see each scheduled shift that week, then tap a shift to view or correct clock in, clock out, and break time.
- **Status** on each shift:
 - **OK** — punched time matches the schedule (within about 15 minutes of paid hours)
 - **Review** — hours do not match or something needs a look
 - **Open** — still clocked in
 - **No punch** — scheduled but no punch recorded yet for that day

Regular pay uses the first **40 hours** in the week; overtime after that is calculated at **1.5x** the hourly rate.

Actions

- **Requests** — time-off and other requests submitted by employees. Review and filter the list here.
- **Callouts** — log of coverage outreach from the schedule.

Messages

Send and read messages with employees. Search to find a conversation, then open a thread to reply.

Setting up the time clock tablet

The wall tablet is not signed in as an employee.

1. On the login page, tap **Time clock tablet sign in**.
2. Sign in with name **iPad** and password **redpoke**.
3. Leave the tablet on the punch screen. Staff only enter their **6-digit PIN** (see list at the end of this guide).
4. First PIN entry of the day = **clock in**. Second entry = **clock out**.

For employees

Sign in with your **full roster name** (for example **MARK ONG**) and password **redpoke**.

You will see three tabs: **Home**, **Messages**, and **Actions**.

Home

- See **today's shift** (if you are scheduled).
- Browse **upcoming shifts** by week using **Prev week / Next week**.

Messages

Read and send messages to managers.

Actions

Submit requests such as time off. Fill out the form and submit; managers see it under **Actions → Requests**.

Clocking in and out at work

You do **not** need to sign into the employee app to punch the time clock.

1. Go to the shared tablet on the time clock screen.
2. Enter your **6-digit PIN** (see your manager or the list below).
3. The screen will confirm **Clocked in** or **Clocked out**.
4. If it says the PIN is not recognized, ask a manager to confirm your PIN on **Team → your name**.

Times are rounded to the nearest **5 minutes** for payroll.

Employee roster and clock PINs

Use the name **exactly as spelled** when signing into the employee app. Use the **PIN** only on the time clock tablet.

Employee	Role	Clock PIN
ABEL LUJAN	Server	631265
ANGELYN GELLA	Bartender	179837
ARMANDO CUMES	Kitchen	946166
BALTAZAR LUCAS	Kitchen	802270
BERNABE DE LEON	Kitchen	570868
ENRIQUE CUMES	Kitchen	560042
EUGENE VILLARRUZ	Bartender	194971
IRINEO PINEDA	Kitchen	624574
JONG SARDUA	Bartender	106981
JUAN SALVATIERRA	Server	218688
MARK ONG	Bartender	838749
NATALIO DE LA CRUZ	Server	311437
SIED SUMOG - OY	Bartender	841764
ZEFERINO FLORES	Kitchen	700910

If your PIN stops working, a manager may have issued a new one — check with them on the **Team** screen.

Quick help

Issue	What to try
"Name or password is incorrect"	Managers: use Martin Long or Ongi Management . Employees: match the spelling in the table above. Password is redpoke .
PIN not recognized on the tablet	Double-check the 6 digits. Ask a manager to read your PIN from Team → your profile .
Employee app shows no shifts	You may not be scheduled that week, or your name on the schedule must match your sign-in name.
Manager cannot open Timecards	Sign out and sign in again as Martin Long or Ongi Management .
Forgot employee password	Ask a manager; they can help you get access again.

Managers: update the PIN table whenever you assign new PINs on the Team screen.
